Campus Context | Why College Campuses?

- **Built-in rivalries** : school-vs-school competition fuels engagement without extra marketing
- **Skill-hungry demographic** : students (ages 18–24) are actively building resumes, seeking differentiation, and open to tools that blend play with development
- **Captive, networked audience** : college students live, eat, and socialize together, making word-of-mouth and team recruitment natural

Competitive Landscape

 Duolingo	Strengths	Weaknesses vs. Atlas
 Kahoot	Habit loops, gamification	Single-player, foreign to competitive framing
 NY Times	Campus familiarity, classroom use	Academic framing, not engaging as a game
 NY Times	Massive daily habit, brand trust	Solo play only, no skill progression, no social layer

Who We're After

The Riddler

The Builder

The Competitor

Campus Partners

- **Esports / Gaming Clubs**
 - Competitors by nature, Discord-native, recruit teammates
- **CS / Coding Clubs**
 - Builder persona, value skill-building, connect to hackathons
- **Residence Hall Associations**
 - Broad reach, team-building events
- **Math / Puzzle Clubs**
 - Riddler persona, love logic games

Multi-Channel Growth Engine

- Focus on consistent branding cross-platform
- Short and to the point promotion

Off Brand/Ineffective Promotion

- Unserious
- Heavy on Text

16-Week Execution Timeline

Weeks 1-4: Strategy, Planning, Setup

Weeks 5-8: Assets Finalization & Pre-Launch

16-Week Execution Timeline

Weeks 9-12: Launch & Amplification

Weeks 13-16: Optimization, Final Push & Wrap Up

Resource & Budget Allocation

- Experiential (40%)
- Digital & Social (35%)
- Collateral & OOH (15%)
- Agile Reserve (10%)

Resource Deployment

- 🕒 Align ambassadors to peak traffic hours
- 👤 Target high-affinity campus zones
- ⚡ Maximize impact, avoid team burnout
